E CHAN Ultra Safe Security Mesh System E CHAN 防盗金刚网门窗

It's taken years of research to develop the strongest, most trusted security screen on the market, and it's a reputation we're determined to keep through constant innovation. Because like you, when it comes to protecting your loved ones, we won't settle for second best.

Our high-security doors, screens, all provide Top levels of protection against home intruders. With E Chan Ultra Safe Security Mesh installed in your home, you can rest assured that you and your family are secure against intruders and potential thieves. Protect your loved ones, your home and your valuables.

The stainless steel security mesh is available in 1.0mm and 1.2mm various. The security mesh is constructed so that you retain a full view when looking out through the security screen doors.

We have developed our range of patented Meshlock security doors and screens that provide maximum protection whilst maintaining an attractive exterior look for your home. With a suite of security screens and security doors to choose from, your family will enjoy the peace of mind that goes with knowing they're safe from potential threats.

Beyond that, we also offer a full warranty against faulty components. We are confident in this guarantee because our manufacturing and installation processes adhere to the highest standards in our industry.

Introducing Ultrasafe - we use to bend the mesh and slot inside the aluminium profile. add on with heavy duty screw to secure the mesh with the aluminium profile.

The Security mesh profile are made by alloy 6063-T6 Aluminium with min thickness 2.0mm finished with powder coat against rusty.

The Self-innovative lock, keep your home safe and have smooth opening for every day.

The High textile mesh keep you feel confident about leaving your doors open and take advantage fresh air, cool breezes and natural light.
